Firefighters Limit Damage at RV Center

Sumner, WA—East Pierce Fire and Rescue firefighters quickly doused a motor home fire at the Sumner RV Center Saturday morning. They were called to the business, located on the 4300 block of East Valley Highway East, at 9 a.m. and found one motor home fully involved in flames.

According to Acting Battalion Chief Brian Schulz, an RV undergoing maintenance in the parking lot of the business burst into flames. "The fire most likely started in the engine compartment," he says. "It engulfed one motor home. A second one nearby was 50 percent consumed."

He noted that the firefighters quick response prevented the blaze from spreading to the rest of the motor homes and a house on the property.

There were no injuries reported. The cause of the fire is under investigation.
