Crash Closes Eastbound Lanes of Highway in Bonney Lake

Bonney Lake, WA—It took the crews from three fire engines and two Medic units to remove a driver involved in a two-vehicle crash Thursday at 208th Avenue East and State Route 410 East in Bonney Lake.

East Pierce Fire and Rescue firefighters arrived around 10:40 a.m. to find one of the drivers trapped in the vehicle. Firefighters were forced to use extrication tools, including the Jaws of Life, to cut through the mangled vehicle and rescue the driver, who was transported to an area hospital with serious injuries. The other driver was also transported to a local hospital with less serious injuries.

According to East Pierce Battalion Chief Rick Goetz, the eastbound lanes of State Route 410 East were closed for quite awhile during the rescue.
